

IT'S ALL NATURAL!

Rapid Response is a nutritional supplement capable of transforming our entire health experience.

Also available
for Horses &
Humans!

Rapid Response has a multitude of uses:

- hip dysplasia
- sore backs
- weak back
- stomach ulcers
- pain relief
- paralysis
- MS symptoms
- fractures
- soft tissue
- tendons
- ligaments
- cartilage
- bones
- skin problems
- first aid for cuts

TESTIMONIAL:

Hi Sharone,
I know you're probably not surprised, but I never cease to be amazed at the miracle of Rapid Response. Last Saturday, after a week of almost daily visits to the vet without a diagnosis nor any pain relief, but after acquiring \$700 in diagnostic expenses, I took my 15 year old Schnauzer, Charlotte, back to the vet to be put down. She struggled to walk, her hind legs slipping out from underneath her. She seemed drunk in the back end. She couldn't even stand to urinate, and unlike herself, she snapped at me and even bit me if I touched her in the wrong spot. This time the vet suggested we give her an acupuncture treatment and see what happened, and I took her back home. Nothing happened. For two days she remained the same. I had to lift her to go outside, and hold her so she could go.

So I began to give her Rapid Response HF – with a turkey baster – anyway. Two more days passed, and she seemed stronger. She could manage to drag herself to the potty papers, and almost hit them. Three more days passed, and on Friday, Charlotte, who I'd left laying in the grass for 5 minutes while I

drove to the mailbox, walked correctly up to the car to greet me!

She's pretty deaf, so I spoke directly into her ear, "Do you want to go for a walk?" She wagged her tail, and we took a walk four hours down and back again. She smiled all the way. Today is again Saturday. Charlotte was a little stiff getting on her feet this morning, but when I went outside to feed the horses, she followed me all by herself, no sign of a limp. She trotted outside and sniffed around, and then she sat down – properly! – and watched me feed the horses, like she always has.

After three weeks, I still have no idea what was wrong with her. Rapid Response HF is truly the result of God's gifts to Dr. Fourziano, and to you carrying out her goals.

Thank you Sharone.

Jan
