ULCERS? See what the Horse-Journal.com says about Rapid Response and ulcers!

"Extremely effective for rapid relief of ulcer symptoms, with appetite returning. From immediately to 18 hours. Once horse is back on feed, can be added to meals rather than dosed. Palatable... doubles as a joint supplement."

\$39.00 per day for Gastro?

OR **ONLY \$1.88 to \$6.72 per day for Rapid Response** and you will gain great benefits like, joints, bone, soft tissue, cellular, anti-viral, immune, etc.

TESTIMONIAL:

*Nutraceutical Big Guns –
Rapid Response F is a "Top Gun".*

"Inflammation... For the most punch you're going to want to choose Rapid Response F... Rapid Response F formula is a unique approach... with plant anti-oxidants and anti-inflammatories, glucosamine and chondroitin. It was a top performer in previous trials, including the only supplement that worked for some tough ringbone cases. It didn't let us down this time, either. Overall, our top performer for really tough cases is Rapid Response F... That said we wouldn't give up entirely on a horse without trying Rapid Response F. Some of the most dramatic responses came in horse's with ringbone that had been lame for months to years... excess bone decreased on radiographs".

– The Horse-Journal.com, November 2007

Every issue we provide new testimonials from customers, veterinarians, or articles sharing with you the successful stories of Rapid Response. Keep your eyes open to see what everyone thinks!
